Will you be able to see my password for Buffer?

Frequently Asked Questions · https://www.evergreencontentposter.com/support/frequently-asked-questions/will-you-be-able-to-see-my-password-for-buffer/

Nope, don’t you worry. We use a system call oAuth to connect your Buffer account with Evergreen Content Poster. This allows you to authorize us to add items to your Buffer queue without the need for a password. If for whatever reason, you want to deactivate the plugin, this connection will automatically be reset.

But wait, isn’t the Buffer API retired?

No, in October 2020, we’re proud to have been selected as a Partner by Buffer. This ensures continued access to Buffer’s API, meaning that the Evergreen Content Poster will continue to work.
